

Envelope Church Craft Instructions

1. Print out the church pattern. Color it in.
2. Cut out the shapes. You should have 6 separate pieces (the church “envelope” shape, the door, cross, 2 windows, and the words “here’s the church”).
3. Fold the big envelope shape. Fold the pieces in so you cover the pulpit in the middle. On the top-most part of the envelope, fold the dotted line back, forming a small triangle.
4. Glue the very bottom of the cross on the small folded triangle. The top of the cross will stick out and not be glued to anything.
5. Glue a window on each of the sides.
6. Glue the doors on the outside bottom. The top of the door should stick out over the bottom of the envelope shape.
7. Glue the words “here’s the church” on the outside top.
8. Open the envelope and add people to your drawing. I added congregation members, a choir and a pastor, but you can add whatever you want.
9. Fold it all up and then you have it ready to go.

“Here is the church. Here is the steeple. Open the doors, see all the people

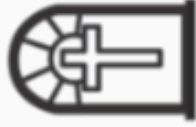

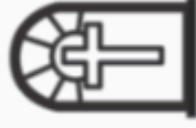

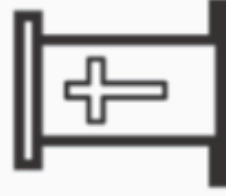

Here's
the Steeple!

Open the Doors

See all the people!
